RODAN + FIELDS®
REVERSE
Regimen for the Appearance of Brown Spots, Dullness and Discoloration
It’s not what you see, it’s what you don’t see.

It’s estimated that as much as 80% of skin’s aged appearance is caused by the sun, not the passage of time. The damage caused by UV exposure is not only visible on your face, but lurks under the skin’s surface, making your complexion appear dull, sallow, uneven and aged. Much of the appearance of environmental aging is visibly reversible.

We created the Rodan + Fields® REVERSE Regimen as a simple, full-face solution that tackles the damage brought on by years of cumulative sun exposure. The REVERSE Regimen exfoliates dulling dead skin cells, visibly lightens unwanted discoloration, brightens the overall complexion, and provides broad spectrum UVA/UVB protection, noticeably improving the appearance of environmentally-aged skin.

Katie Rodan, M.D.  Kathy Fields, M.D.
How Does the REVERSE Regimen Work?

REVERSE is based on our Multi-Med Therapy® philosophy of combining the right ingredients in the right formulations and using them in the right way to achieve real benefits without a prescription or a visit to a dermatology office. To address the dull appearance of sun damaged skin, REVERSE Regimen:

- Brightens dull skin, improves tone and texture and boosts skin’s radiance.
- Exfoliates skin to remove complexion-dulling dead skin cells.
- Defends with broad spectrum UVA/UVB SPF 55 sunscreen protection.
- Reduces the appearance of fine lines to perfect skin’s surface and light reflectance.
REVERSE Results

After eight weeks of REVERSE use, participants in an independent clinical study experienced the following results:

PERCENT OF PARTICIPANTS EXPERIENCING AN IMPROVEMENT

- 92% brightness
- 92% smoother texture
- 84% brown spots
- 76% even skin tone
- 60% fine lines

*Independent clinical study. Results may vary.

The 4-Product REVERSE Regimen

1. REVERSE Deep Exfoliating Wash
   Alpha hydroxy acids and polyethylene beads gently remove dulling, dead skin cells for a smooth, fresh complexion. Deep exfoliation instantly brightens skin and prepares it for the steps that follow.

2. REVERSE Intensive Brightening Toner
   Proprietary blend of kojic acid and antioxidants visibly brightens skin and gradually fades discolouration. Salicylic acid and licorice enhance skin renewal and refine skin for a more radiant complexion.

3. REVERSE Dual Active Brightening Complex
   Features the combination of vitamin C and retinol formulations to enhance brightening of the skin while diminishing the look of fine lines and wrinkles. These two formulations are blended to work as one with clinically proven skin brightening and spot fading efficacy. Kojic acid and licorice further improve the appearance of uneven skin tone over time.

4. Broad Spectrum SPF 55 Sunscreen
   Broad spectrum UVA/UVB sunscreen defends against pigment-stimulating UV rays. Contains an exclusive complex of avobenzone, other sunscreen ingredients and colorless carotenoids to visibly decelerate the signs of aging that appear over time. Licorice extract and mulberry help to brighten dull skin.
Getting Started

Begin the REVERSE Regimen slowly in order to let skin acclimate. Follow the schedule below for best results:

### Week 1

<table>

- For the REVERSE Dual Active Brightening Complex, first dispense an equal pea-size amount of both the vitamin C and retinol formula. Then, blend product and apply evenly over the entire face, avoiding eye area.

- Omit REVERSE Broad Spectrum SPF 55 Sunscreen in the evening.
- The REVERSE Regimen is introduced slowly, so during the first three weeks, use a gentle cleanser, toner, moisturizer and sunscreen when not using the regimen.
- If dryness occurs, use a moisturizer after applying REVERSE Dual Active Brightening Complex. We recommend REDEFINE Overnight Restorative Cream.
- If redness and/or irritation occur, take a break from the regimen for two to three days. During this time, we recommend using our SOOTHE Regimen to reduce visible irritation.
Get the most from your REVERSE Regimen by using it with our patent-pending REDEFINE Tools

REDEFINE MACRO Exfoliator™
To reveal your smoothest, freshest-looking skin

Get professional level benefits in the comfort of your home by sweeping away a week’s worth of dulling dead skin cells in just five minutes, leaving behind smoother, healthier-looking luminous skin. The proof is in the filter where you can actually see the dulling, dead outermost skin cells and debris that have been covering up your best skin. Our guarantee? You will feel the difference in your skin after only one use.

Incorporate the MACRO Exfoliator into your REVERSE nighttime skincare routine once you have ramped up using REVERSE Regimen morning and evening.

REDEFINE AMP MD™ Micro-Exfoliating Roller
Amps up your REVERSE results

With daily use, fractionated exfoliation improves the tone and texture of the complexion as skin responds to the contact of micro-needle tips. Used nightly with our REVERSE Regimen, this combination is clinically proven to accelerate the results of the regimen while also promoting a firmer-looking complexion.

Incorporate the AMP MD Micro-Exfoliating Roller into your REVERSE nighttime skincare routine at least three days a week after steps 1 and 2. After rolling, apply REVERSE Dual Active Brightening Complex. We recommend starting once you have ramped up using REVERSE Regimen morning and evening. Do not use the same day you macro-exfoliate.
Frequently Asked Questions

Do I need to use all of the steps in the REVERSE Regimen to get results?
For best results use the complete REVERSE Regimen as directed. Each step of the REVERSE Regimen builds upon the previous step to address every aspect of brown spots, dullness and discoloration. Used in combination, the formulations provide exfoliation, skin brightening and broad spectrum sun protection. Skipping any step could hinder achieving maximum results.

How long can I stay on the REVERSE Regimen?
There is no limit to how long you can use the REVERSE Regimen. However, once you have addressed your concerns about dullness and discoloration, we recommend you transition to our REDEFINE Regimen for the Appearance of Lines, Pores and Loss of Firmness.

Does the REVERSE Regimen permanently fade brown spots?
After using REVERSE and obtaining the desired results, if you are extremely diligent about using broad spectrum sunscreen and limiting exposure to sun, you should be able to maintain your results. However, understand that a single day of unprotected sun exposure can virtually undo months of hard work. Apply a broad spectrum sunscreen every day and reapply it every two hours when exposed to sunlight.

Can the REVERSE Regimen be used on sensitive skin?
If your skin is sensitive we recommend you strengthen your barrier with our SOOTHE Regimen for Sensitive, Irritated Skin and Facial Redness. This regimen is clinically proven to reduce redness and irritation in as little as five minutes.

Can I use the REVERSE Regimen if I’m pregnant or nursing?
We recommend that a woman who is pregnant or nursing consult with her doctor about her current products and/or the use of cosmetic tools or before making any changes regarding her skincare routine. Providing the appropriate ingredient lists will help inform the doctor.

Can I use the REDEFINE MACRO Exfoliator™ if I am using the REVERSE Regimen?
Yes. Once you have built up to twice a day usage of the REVERSE Regimen, you may use the MACRO Exfoliator once a week as directed.

Can I use the AMP MD™ Micro-Exfoliating Roller with the REVERSE Regimen?
Yes. Once you have built up to twice a day usage of the REVERSE Regimen, you may begin using the AMP MD Micro-Exfoliating Roller in the evening after Steps 1 and 2 of the REVERSE Regimen. After rolling, follow with REVERSE Step 3.

Can the REVERSE Regimen be used on dark skin?
Yes. REVERSE is safe for use on all skin tones. Richer skin tones are more prone to unevenness due to pigmentation. The REVERSE Regimen is clinically proven to help visibly even skin tone to reveal your most radiant and natural complexion.

Additional Questions?
